

2020 Camp Friedlander Summer Camp Campsite Availability

The information below expresses our current availability at Camp Friedlander based upon the "updated on" date found at the bottom of the page. The campsites listed as **FULL** are booked by one or more units. The cells that are completely vacant are those that are **bold, colored, and shaded green**. The capacity of those that are partially vacant will be the difference between the capacity and the current number of spots reserved by the other unit(s) in that campsite; the number in that cell will be the maximum number of people (youth and adult) that can be accepted without exceeding capacity.

Please note that if a unit exceeds the capacity of the campsite, then it is the responsibility of the unit to provide additional tents, as needed. Camp Friedlander cannot provide additional tents, cots, or mattresses.
